Forestry

Purpose

The New Jersey FFA Forestry Career Development Event is designed to stimulate student interest and to promote the forestry industry as a career choice. It also provides recognition for those who have demonstrated skills and competencies resulting from forestry instruction in the agricultural education classroom.

Objectives

Students will be able to

- Understand and use forestry terms.
- Promote an understanding of the economic impact of the forest environment and the forest industry to the American economy.
- Recognize sustainability (multiple use) opportunities in the forests.
- Recognize environmental and social factors affecting the management of forests.
- Identify major species of trees of economic importance to the United States and internationally.
- Identify and properly use hand tools and equipment in forestry management.
- Recognize and understand approved silvicultural practices in the United States.
- Identify forest disorders.
- Take a forest inventory.
- Utilize marketing management strategies.
- Recognize safety practices in forest management.

Event Rules

The complete rules, policies and procedures relevant to all New Jersey FFA Career and Leadership Development Events may be found in the CDE & LDE Event Participation Policy:

https://nj.gov/agriculture/ag_ed/ffa/activity/CDE_LDE_Policy.pdf

- The team will consist of four individuals, and all four scores will count toward the team score.
- The team score is comprised of the combined scores of each individual and the team activity in which all team members will participate.
- Participants must come to the event prepared to work in adverse weather conditions. The event will be conducted regardless of weather. Participants should have rain gear, warm clothes and closed toed shoes.
- Participants are NOT allowed to use (or have visible) electronic devices during the event, unless for medical reasons or a portion of the event requires usage. This includes cell phones, tablets, etc. Participants will be allowed to use calculators, if specified for that event; however, cell phone calculators and graphing calculators are not permitted! **Failure to adhere to these rules will result in disqualification.**
- All individuals participating will judge in a cooperative manner following the rules set forth by the event coordinator.
- No school/chapter will use Rutgers University or Delaware Valley University facilities or locations for the training of teams. Contact with University faculty and staff is permissible. **Penalty will be disqualification.**
- This event will be scored using "Scan-tron" sheets. It is important for students to listen to directions and fill out the sheets correctly in order to receive credit. Sample scan-tron sheets are available for practice on the State Activity Guide. This event uses the Forestry scan-tron sheet.
- There will be no separate alternate teams.
- Travel Official Dress is required during the event. Travel Official Dress includes boots or work shoes, black jeans or work pants, etc. as opposed to dress attire. Participants must come to the event prepared to work in adverse weather conditions. The event will be conducted regardless of weather. Participants should have rain gear, warm clothes and closed toed shoes.

- A student may not compete in more than one event during the New Jersey FFA Fall Career Development Events.
- The State level competition fee of \$11 per contestant will be paid by the competing school. If a chapter is at least **blue** affiliated, registration to state FFA career development events is waived.

Event Format

EQUIPMENT

Materials to be provided by the student:

- Biltmore Stick
- Two no. 2 pencils
- Clipboard
- Calculator

Participants are not to bring:

- Cell phones or other electronic devices

EVENT SNAPSHOT

Below is a brief overview of the Forestry CDE:

This event consists of five (5) phases:

- Phase I – Team Activity - 150 points (30 minutes)
- Phase II – Written Exam – 100 points (30 minutes)
- Phase III – Tree Identification – 100 points (30 minutes)
- Phase IV – Practicum 1 – 100 points (30 minutes)
- Phase V – Practicum 2 – 100 points (30 minutes)

A chapter must have a team of four (4) for team awards. All four (4) scores are used in determining the team's rank.

Scantron will be used to score this event. At the end of this document is a sample of the sheet used, highlighting where to enter answers. You can get practice sheets here:

https://nj.gov/agriculture/ag_ed/ffa/activity/Scantron-Forestry.pdf

INDIVIDUAL ACTIVITIES

Written Exam (100 points)

- Fifty multiple-choice questions will be selected from areas of the forestry industry reflected in the event objectives. This phase of the event will test the participant's knowledge and understanding of basic principles of forestry.
- Each participant will be allowed 30 minutes to complete this phase of the event.

Tree Identification (100 points)

- Twenty live specimens, pressed samples, fresh leaf samples and/or standing trees, from the tree identification specimen list will be displayed for participants to identify by common names. A number will designate each specimen.
- Each participant will be allowed 30 minutes to complete this phase.

Individual Practicums (100 points) each for total of 200 points per individual

Participants will compete individually in two practicums from the following list:

- Tree Measurement – Timber Cruising for Board Volume
- Forest management evaluation.
- Equipment identification.
- Map interpretation.
- Compass.
- Chainsaw part identification, troubleshooting and safety.
- Tree/Forest disorder.
- Forest products.
- Forest business management problem.

The event coordinator will designate two practicums to be completed by the participant.

Each participant will have 30 minutes to complete each practicum.

TREE MEASUREMENT — TIMBER CRUISING FOR BOARD VOLUME

- Each participant will measure ten pre-numbered trees on a plot for board foot volume. The participant must record the DBH (Diameter Breast Height) to the nearest one-inch class and the merchantable height of each tree height rounded down to the nearest ½ log.
- Volume tables will be provided at the event.
- The following minimum diameters and log length will be:

Minimum Saw Timber	
DBH	10 inches
Top diameter	10 inches DIB
Height	16 feet

- Merchantable height stops are estimated to the upper point on a tree where it becomes 10 inches in diameter or where a major fork in a tree stem occurs or where a limb has a diameter equal to ½ of the diameter of the tree at that point.
- Each participant will be allowed 30 minutes to complete this phase.
- Thirty points will be given for the correct DBH and thirty points for the correct height. Forty points will be given for the correct volume per acre. Five points will be deducted for each five percent deviation (plus or minus) from the correct measured volume.

FOREST MANAGEMENT EVALUATION — TIMBER STAND IMPROVEMENTS (TSI) AND/OR THINNING PRACTICUM

- The trees selected and designated for use in this part of the event may be all of one species or a mixture of species.
- An area will be selected and identified by ribbons, paint, rope, etc. It will contain 20 marked trees within a timber stand. All trees in the selected area will be considered as a forest management site, and the participants will score each marked tree using one of the following options:
 - Harvest — utilize the tree.
 - Leave — the tree should remain in stand for a good reason.
 - Deaden — Undesirable tree, not merchantable or beneficial to wildlife, should be deadened or cut down and left in woods.
- The participants will be given a situation concerning the forest management objectives of the stand selected. This information will be given to participants at the site before they start. Information that will be needed to help participants in their decisions will include the following:
 - Markets available.
 - Wildlife considerations.
 - Present condition of stand.
 - Management plan.

EQUIPMENT IDENTIFICATION PRACTICUM

- Twenty-five pieces of equipment from the equipment identification list will be displayed for participants to identify by technical names. Each piece of equipment will be designated by number.
- The equipment will be presented in one or more of the following forms:
 - Actual samples.
 - Pictures or slides.
 - Written description.

MAP INTERPRETATION PRACTICUM

Participants will answer questions using a furnished United States Geological Survey topographic map. The participant should know legal description, recognize topographic map symbols, and understand the meaning of map symbols, size and location of 40 acres or more in a parcel.

Examples:

- What is the legal description of the boxed area?
- What is the item located at this point?
- What is the acreage of the area enclosed?
- In what section is the city of Marshall located?
- What is the elevation at this point?

Legal descriptions will be written or described according to the public land survey system.

- **Example:** SE $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 3, T3N, R1E

COMPASS PRACTICUM

The participant will use a hand compass and pacing to the nearest full foot to simulate the determination of the property lines on a tract of timber. The participant will start at any point and record the compass reading and distance to the next point. Azimuth readings shall be recorded. Participants will record data for 10 points.

Partial credit will be given with a deduction of one point for each two degrees or two feet the participant is off the correct answer.

CHAINSAW PART IDENTIFICATION, TROUBLESHOOTING AND SAFETY PRACTICUM

This practicum will consist of one or more of the parts listed below. Parts may utilize photos, video, demonstration, actual parts, written situations and/or problems. This is not an all-inclusive list.

- **Chainsaw parts identification:** Each participant will identify parts of a chainsaw (does not include internal engine components).
- **Troubleshooting:** The participant will identify chainsaw problems or troubles.
- **Safety:** The participant will identify safety hazards, unsafe practices and/or proper safety equipment.

TREE/FOREST DISORDERS PRACTICUM

Symptoms of at least 10, but not more than 20, disorders from the Tree Disorders Identification List will be displayed for participants to identify by common names. The symptoms will be presented in one or more of the following forms:

- Actual sample.
- Pictures/slides.
- Written description.
- Written case history.

A number will designate each set of symptoms representing a disorder.

FOREST PRODUCTS PRACTICUM

Ten to 20 wood products/samples will be displayed for participants to evaluate and identify its tree species source from the tree identification specimen list. The wood products/samples will be presented in one or more of the following forms:

- Actual sample.
- Pictures/slides.
- Written description.

FOREST BUSINESS MANAGEMENT PROBLEM PRACTICUM

This section is designed to determine the participant's ability to apply economic principles and concepts of management to the decision-making process by actual problem analysis and to defend the decisions made. This will involve a model forest operation with possible calculation on profit/loss, cost of operation, taxes, depreciation, marketing product, stumpage cost, record keeping, etc.

A maximum of ten problems or questions will be used.

TEAM ACTIVITY

Forest Industry Scenario Team Activity (150 points)

Each team will be provided with a forest industry scenario. The scenario will utilize components from the individual forestry CDE practicums. Teams must work together using forestry skills and tools to complete the team activity. Thirty (30) minutes will be allowed to complete the activity. All supplies and materials needed to complete the task will be provided.

Scoring

Activities	Individual Points	Team Points
Written exam	100	400
Tree identification	100	400
Individual practicums – 2 selected * Tree Measurements/Timber Cruising * Timber Stand Improvement/Thinning (TSI) * Equipment Identification * Map Interpretation * Compass * Chainsaw Part Identification, Troubleshooting and Safety * Tree/Forest Disorders Identification * Forest Products Identification * Forest Business Mgmt.	200	800
Forestry industry scenario team activity		150
TOTAL	400	1,750

**denotes a hands-on practicum area*

TIEBREAKERS

If ties occur, the following events will be used to determine award recipients:

TEAM

1. Written Exam
2. Tree Identification

INDIVIDUAL

1. Written Exam
2. Tree Identification

Awards

Awards will be presented to individuals and the first team based on their rankings at the CDE awards ceremony at the New Jersey State FFA Convention. Awards are sponsored by the New Jersey FFA Foundation, Inc., the New Jersey State FFA Association, and/or the National FFA Organization.

Individual

- Overall Medals
 - Medals – Top three individuals
- H.O. Sampson Certificates (hands-on practicum areas ONLY)
 - Certificate – Top five individuals

Team

- Plaque Sponsored by the National FFA Organization - 1st place

Awards will be presented to individuals and the first team based on their rankings at the CDE awards ceremony at the New Jersey State FFA Convention. The awards are sponsored by the National FFA Foundation and the New Jersey FFA Association.

The 1st place team will represent New Jersey at the National FFA Convention in October.

Request for Reasonable Accommodations

The New Jersey FFA Association is committed to providing equal access to our events and activities for all people. Use this form to request a reasonable accommodation or assistance at least 3 weeks before any state-level events: <https://form.jotform.com/NJFFA/accommodations-request>. A new form will need to be submitted for each event in which a reasonable accommodation is being requested. This information will be kept confidential and will be used only to process the request. Our staff will review the request upon receipt and contact the requestor with additional information. The association cannot guarantee accommodations or assistance if a form is received less than 3 weeks before an event. Accommodations being requested that require the assistance of another person (nurse, interpreter, scribe, reader, etc.) is the responsibility of the school/requestor. It is also the school/requestor's responsibility to provide any approved equipment to aide in the accommodation process, if applicable.
